PROJECTS

SAKSHAM

Axis Bank (Mphasis/Avotima Technologies)

JUL 2017 - APR 2022

This project is used to monitor customer queries regarding any banking facilities of Axis bank, used by branches and call centers as well. This platform is used across pan India. This product is mainly used by Inbound communication channels of Axis bank. In this project, I worked as a Team Lead for the Credit Card Module and previously worked as a Sr. software developer for liability & Credit Card Module. Monitoring All Customer related queries of Credit Cards, understanding them, and finding optimal solutions which resolve further issues. Handled Development, Deployment part of a project.

PMS (Promotion Management System)

Axis Bank (Mphasis/Avotima Technologies)

MAR-APR 2018 | MAR-APR 2019 | MAR-APR 2020 | MAR-APR 2021

This project is the backbone for promotions of all Axis Bank employees, which happens in April every year. In this project, I worked as a Sr. Developer. Development, as well as designing, was handled by me. Yii framework was used in this project with Oracle DB.

Axis One App (AOA)

Axis Bank (Mphasis)

MAY 2020 - JUL 2020

This project is a Web version of Axis One App (Mobile App). It's a dashboard where users can check all employee-related data of Axis Bank. This project's designing, development, and API were solely handled by me. This was built in Yii Framework and core PHP with Oracle DB.

Employee Geo-location Tracking

Axis Bank (Avotima Technologies)

APR 2019 - JUN 2019

This project is used to track employees' current location. If an employee is in the perimeter of his/her office location then it will simply mark it as a present for the day. This project can log all employees tracking within office hours. It helps Axis Bank to know all employees' behavior within office hours. I worked on this project as a Sr. Developer where I mainly worked on Google Map API and created the core functionality of this project.

PROJECTS

Accentuate Website - accentuateglobal.in

Accentuate Ltd (Innovins Technologies)

MAR 2017 - JUN 2017

This website was solely created by me. This was built in Laravel Framework with Mysql DB.

Micro Framework

Accentuate Ltd (Innovins Technologies)

DEC 2016 - FEB 2017

Solely built by me. This framework can make websites in 5-10 min. We have created modules for all parts of websites like different headers, footers & sections which can be reused multiple times. This framework helps us bundle all required modules together to build a fully functional website. This framework is built with core PHP, Sass (for CSS), Javascript, and webpack (used for other assets).

Chat Application (Saas Product)

Accentuate Ltd (Innovins Technologies)

AUG 2016 - NOV 2016

Chat System (Saas - software as a service), which can be added to any website. Implementation was quite easy, just need to add a small snippet of JS code and you are done, Just like Google analytics. Solely built by me. By using this product, the user can chat with his/her customers from the website also.

Restaurant Reservation (Saas Product)

Accentuate Ltd (Innovins Technologies)

MAY 2016 - JUL 2016

This product is also the same as Chat System. Solely built by me. It's a Restaurant Reservation system.

PROJECTS

Appointment Booking (Saas Product)

Accentuate Ltd (Innovins Technologies)

FEB 2016 - APR 2016

This product is also the same as Chat System. Solely built by me. It's an Appointment Booking system.

Limo Booking (Saas Product)

Accentuate Ltd (Innovins Technologies)

NOV 2015 - JAN 2016

This product is also the same as Chat System. Solely built by me. It's a Limo Booking system.

Website Development (Frontend & Backend)

Nextgen IT World

SEP 2013 - OCT 2014

Worked as a PHP Developer, created many websites, and worked in all phases of website development from frontend to backend development and deployment of websites also. Websites were static & semi-dynamic.
